

V4 Oil Filled Pump

Salient Features

- The motors are designed to start at low voltage & work in a wide voltage fluctuation.
- Well-designed sleeve and tilting thrust bearings for longer life.
- Stator & Rotor are vacuum impregnated and coated properly with epoxy paint to ensure corrosion resistance & reduce eddy current losses.
- High operating efficiencies of pump set results into high water discharge rate and less power consumption.
- Rotors are dynamically balanced to ensure long bearing life & vibration free smooth operation.
- Less power consumption & operating cost due to high pump efficiency.
- Pumps are provided with a reliable non-return valve to reduce water hammering & friction losses.

Technical Specifications

- Product Range - 1 HP to 2 HP
- Head Range - 12 Mtr to 240 Mtr
- Discharge Range - 170 LPM to 15 LPM

Applications

Manufactured by:

Laxmi Pumps Pvt. Ltd.

A-10, MIDC, Gokul Shirgaon, Kolhapur - 416 234 MH (India)
